DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/23/2008 has been entered.

Applicant's cancellation of claims 50-54, in the paper of 6/23/2008, is acknowledged. Claims 32-48, and 59 are at issue and are present for examination.

Applicants' arguments filed on 6/23/2008, have been fully considered and are deemed to be persuasive to overcome some of the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

Information Disclosure Statement

Applicant's submission of the information disclosure statement on 9/8/2008, is acknowledged. Those references considered have been initialed.

Specification

The disclosure is objected to because of the following informalities: Applicants figures list sequences which meet the definition of an amino or nucleic acid sequence and require a sequence identifier in either the figure itself or in the description of the figure. Specifically, figure 17 lists two rat amino acid sequences and the description of figure 17 refers to SEQ ID NO: 48 and SEQ ID NO: 49, however the first amino acid sequence of Figure 17 does not match the referenced amino acid sequence of SEQ ID NO: 48. Specifically the amino acid sequence of SEQ ID NO: 48 has a proline residue at the amino terminus of the sequence that is not found in the figure, thus the sequence are not the same.

Appropriate correction is required.

Allowable Subject Matter

Claims 32-48 and 59 are allowed.
